myths of the cold war amending historiographic distortions provides a corrective for the distortions and omissions of many previous domestic and foreign including russian studies of the cold war especially those published since 2000 the present interest motivation in weeks s analysis is gaining a clear understanding of the bi polar 4 trillion nuclear war threatening standoff that lasted over 40 years after world war ii until the demise of the soviet union in 1991 without such knowledge and understanding of this dangerous conflict any future encounter of the cold war type with another nation state is liable to be construed in confusing ways just as the u s soviet cold war was the consequence of such misunderstanding in the historiographic sense as well as in policy making at the highest level is that the populations of the contending powers will have distorted conceptions of the reasons for the confrontation the result of this in turn is skewed tendentiousness that masks concrete underlying causes of intense inter state contention practical benefits thus flow from an unprejudiced analysis of the past cold war with communist russia this understanding can help prevent a future conflict such as one with communist china which some reputed sinologists are currently predicting as well as one with post soviet russia conversely if a new cold war is imposed on the west a clearer understanding of the post world war ii archetypical cold war will be edifying

the definitive history of the cold war and its impact around the world we tend to think of the cold war as a bounded conflict a clash of two superpowers the united states and the soviet union born out of the ashes of world war ii and coming to a dramatic end with the collapse of the soviet union but in this major new work bancroft prize winning scholar
